Flame Genie Pellet Fire Pit

Enjoy a unique Fire Pit experience without the smoke, sparks and cleanup hassels. The Flame Genie produces maximum flame utilizing Gravitational Afterburner System which also minimizes smoke. The delightful flame pattern can be enjoyed for hours. Flame Genie burns clean and easy to handle wood pellets, producing minimal ash, and requires little cleanup.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
HCFG16	Flame Genie Fire Pit 16" - Painted Black	1	14 lbs.	\$99.00	Y
HCFG16SS	Flame Genie Fire Pit 16" - Stainless Steel	1	14 lbs.	299.00	Y
HCFG19	Flame Genie "Inferno" Fire Pit 19" - Painted Black	1	28 lbs.	179.00	Y
HCFG19SS	Flame Genie "Inferno" Fire Pit 19" - Stainless Steel	1	28 lbs.	479.00	Y
HCGT	Flame Genie Tote for 13" Model	1	2 lbs.	9.99	Y
HCGT19	Flame Genie Tote for 19" Model	1	2 lbs.	15.99	Y

1. Add pellets up to fill line.
2. Light w/gelled firestarter, fatwood or other solid starter.
3. Wait a few minutes, sit back and enjoy the unique burn.
4. Add small amounts of pellets at a time when re-filling to minimize smothering of the flame/smoke.

SRW Kit Control Panels

Model	Ignition	Description	MAP Price
PAVER-CP-AWS	AWS	Control Panel - for AWS Electronic Ignition System "AWS" Burner Systems, For use when building fire pit enclosures with SRW block or pavers - FPB Series Thermocouple Manual Safety "AWS" Burner Systems. Includes: Stainless Steel Paver Kit Bracket and Extender, Lintel - 12" L X 3" W (20 gauge galvanized steel), Screws, Fittings and Tapcon concrete anchors. Valve Kit and Face Plate purchased separately or as part of the FPB or LOF Burner Systems.	\$69.00
PAVER-CP-TPSI	TPSI	Control Panel - for Thermocouple Piloted Safety Ignition "TPSI" Burner Systems, For use when building fire pit enclosures with SRW block or pavers - FPB Series Thermocouple Piloted Safety "TPSI" Burner Systems. Includes: Stainless Steel Paver Kit Bracket and Extender, Lintel - 12" L X 3" W (20 gauge galvanized steel), Screws, Fittings and Tapcon concrete anchors. Valve Kit and Face Plate purchased separately as part of FPB Series kit.	\$89.00
PAVER-CP-MT	MT	Control Panel - for Match Throw "MT" Burner Systems, For use when building fire pit enclosures with SRW block or pavers. Includes: Stainless Steel Face Plate for Key Valve with Rubber Plug for MSI Hole, Paver Kit Bracket and Extender, Lintel - 12" L X 3" W (20 gauge galvanized steel), Screws, Fittings and Tapcon concrete anchors. Key Valve Kit purchased separately or as part of the FPB or LOF Burner Systems.	\$99.00
PAVER-CP-MT-MSI	MT	Control Panel - for Match Throw "MT" Burner Systems requiring a Battery Spark Ignition, For use when building fire pit enclosures with SRW block or pavers - Match Throw "MT" Burner Systems. Includes: Face Plate for Key Valve and MSI, Paver Kit Bracket and Extender, Lintel - 12" L X 3" W (20 gauge galvanized steel), Screws, Battery Operated Piezo Ignitor Assembly, 48" Ignition Wire, AAA Battery, Ignition Hood and Screen, Fittings and Tapcon concrete anchors. Key Valve Kit purchased separately or as part of the FPB or LOF Burner Systems.	\$239.00

Flexframe

Model	Size	Description	MAP Price
FLEXFRAME-SS	N/A	Constructed of 16 Gauge 304 Stainless Steel. Engineered to protect against outdoor elements including salt water environments - two (2) 44" pieces per package	\$259.00
FLEXFRAME-SS3	N/A	Constructed of 16 Gauge 304 Stainless Steel. Engineered to protect against outdoor elements including salt water environments - three (3) 44" pieces per package	\$389.00
FLEXFRAME-PRO3	N/A	Pro Series - Wider Version of the FLEXFRAME - Designed for Larger Round, Square and Linear Burner Systems - Constructed of 16 Gauge 304 Stainless Steel, (3) 44" pieces per package	\$569.00

SRW Vent Kits

Model	Size	Description	MAP Price
PAVER-VENT-4-LNTS	4"	Stainless Steel Paver Vent Kit with Lintel: includes (2) 3 5/8" tall x 8" wide vents with mounting plate, extension plate extends overall size up to 10" wide and two (2) Tapcon self-tapping concrete anchors and Lintel 12" Long x 3" Wide (20 Gauge Galvanized Steel). Each vent provides 18 square inches of ventilation.	\$109.00
PAVER-VENT-6-LNTS	6"	Stainless Steel Paver Vent Kit with Lintel: includes (2) 5 5/8" tall x 8" wide vents with mounting plate, extension plate extends overall size up to 10" wide and two (2) Tapcon self-tapping concrete anchors and Lintel 12" Long x 3" Wide (20 Gauge Galvanized Steel). Each vent provides 18 square inches of ventilation.	\$119.00

IGNITION SYSTEMS

ALL WEATHER ELECTRONIC IGNITION SYSTEM

AWS Ignition System

This all weather electronic ignition system will make designing your project easier as well as making installation a breeze.

In addition to the AWS System that we have on all our Sanctuary Series & Burner Systems; we also offer an **AWS A La Carte System** for you to build your own custom burner system that fits your needs.

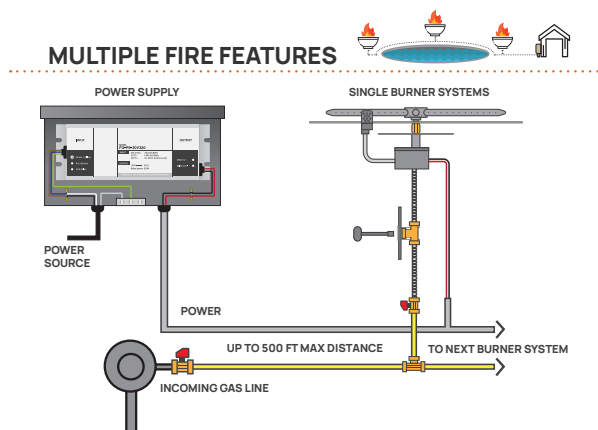

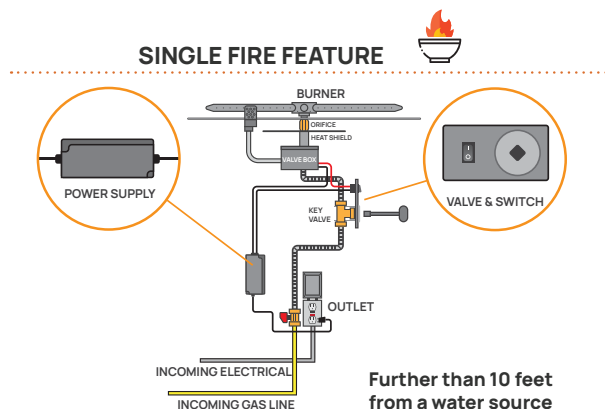

Run up to 4 fire features off of one power supply

Place fire features within 5 feet of water source

Extremely reliable in strong wind and heavy rain

Single Fire Feature | All Weather Electronic Ignition System [AWS]

Model	Description	MAP Price
FG-AWS30VDC-GOEK-N	Includes: 290K BTU Capacity 30VDC Valve System for Natural Gas, 30" Pilot Assembly, Heat Shield, Wire Leads, Hardware Bag, GOE-30VDC Power Supply, On/Off Weatherproof Rocker Switch and Stainless Steel Mounting Plate - 290K BTU NG (replaces part # FG-AWS30VDC-RCK)	\$3,499.00
FG-AWS30VDC-GOEK-P	Includes: 290K BTU Capacity 30VDC Valve System for Liquid Propane, 30" Pilot Assembly, Heat Shield, Wire Leads, Hardware Bag, GOE-30VDC Power Supply, On/Off Weatherproof Rocker Switch and Stainless Steel Mounting Plate - 290K BTU LP (replaces part # FG-AWS30VDC-RCK)	\$3,499.00
FG-AWS-HARDWARE-BAG	Replacement hardware bag for all AWS valve systems	\$51.00
AWS-FACEPLATE	Stainless Steel Faceplate (only) for AWS Valve Systems for mounting Key Valve and ON/OFF Weatherproof Switch	\$73.00

Multiple Fire Features | All Weather Electronic Ignition System [AWS]

Model	Description	MAP Price
FG-AWS-PS-30V320	30VDC, 320W Power Supply - POOL CERTIFIED - built into NEMA Approved Enclosure - for use with single installation or up to four fire features, max distance run of 500' - Replaces FG-PS-30V320	\$999.00
FG-AWS30VDC-HC-K-N	NEW HIGHER BTU: FG-HCNG-30VDC Valve System, High Capacity Natural Gas Valve System - 3/4 FIP Inlet, 3/4 FIP Outlet, 30" Pilot Assembly, Mounting Plate for High Capacity Key Valve (3/4" IPS straight Valve with Key) and On/Off Weatherproof Rocker Switch, Heat Shield, Mounting Hardware, Wire 10' AWS Power Wire to Valve, T300-9898-34 (5/8" OD, 1/2" ID Tranquiline Gas Flex Connector, 3/4" Stainless Steel Close Nipple, 5/8" Flare x 3/4" MIP Steel Adapter (Tapped 1/2 FIP), Power Supply and Orifice Not Included - 715K BTU NG	\$4,489.00
FG-AWS30VDC-HC-K-P	NEW HIGHER BTU: FG-HCNG-30VDC Valve System, High Capacity Natural Gas Valve System - 3/4 FIP Inlet, 3/4 FIP Outlet, 30" Pilot Assembly, Mounting Plate for High Capacity Key Valve (3/4" IPS straight Valve with Key) and On/Off Weatherproof Rocker Switch, Heat Shield, Mounting Hardware, Wire 10' AWS Power Wire to Valve, T300-9898-34 (5/8" OD, 1/2" ID Tranquiline Gas Flex Connector, 3/4" Stainless Steel Close Nipple, 5/8" Flare x 3/4" MIP Steel Adapter (Tapped 1/2 FIP), Power Supply and Orifice Not Included - 715K BTU LP	\$4,489.00
FG-AWS30VDC-K-N	290K BTU Capacity 30VDC Valve System for Natural Gas - 1/2 FIP Inlet, 1/2 FIP Outlet, 30" Pilot Assembly, Mounting Plate for High Capacity Key Valve (3/4" IPS straight Valve with Key) and On/Off Weatherproof Rocker Switch, Heat Shield, Mounting Hardware, Wire 10' AWS Power Wire to Valve, T200-9898-46 (1/2" OD, 3/8" ID Tranquiline Gas Flex Connector, Stainless Steel Coupler, 1/2" Flare x 1/2" MIP Steel Adapter (Tapped 1/2 FIP), Power Supply and Orifice Not Included - 290K BTU NG	\$3,499.00
FG-AWS30VDC-K-P	290K BTU Capacity 30VDC Valve System for Liquid Propane - 1/2 FIP Inlet, 1/2 FIP Outlet, 30" Pilot Assembly, Mounting Plate for High Capacity Key Valve (3/4" IPS straight Valve with Key) and On/Off Weatherproof Rocker Switch, Heat Shield, Mounting Hardware, Wire 10' AWS Power Wire to Valve, T200-9898-46 (1/2" OD, 3/8" ID Tranquiline Gas Flex Connector, Stainless Steel Coupler, 1/2" Flare x 1/2" MIP Steel Adapter (Tapped 1/2 FIP), Power Supply and Orifice Not Included - 290K BTU LP	\$3,499.00
FG-AWS-HARDWARE-BAG	Replacement hardware bag for all AWS valve systems	\$51.00
AWS-FACEPLATE	Stainless Steel Faceplate (only) for AWS Valve Systems for mounting Key Valve and ON/OFF Weatherproof Switch	\$73.00

THERMOCOUPLE PILOTED SAFETY IGNITION

TPSI Ignition System

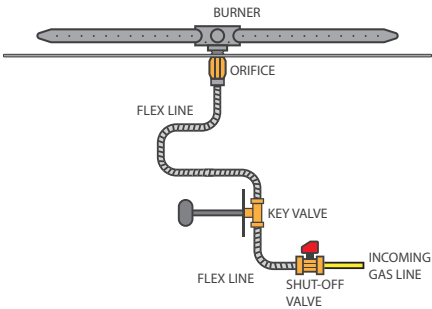

- Thermocouple Piloted System with Safety Valve turns gas off when loss of flame
- Easy ignition with Battery Spark Igniter (included)
- TPSI system with Safety Valve turn gas off when pilot flame goes out
- Robust ignition system with full BTU throughput

MATCH THROW

MT Ignition System

- Most popular ignition system, least amount of cost
- Light a match or a butane lighter
- Can be used in residential installs
- This system is the easiest to use, and with non-listed burners you can achieve high BTU's and big flames.

Upgrades for Match Throw [MT] Burner Systems

Model	Description	MAP Price
MSI-BSMTI	Manual Spark Ignition Kit for FPB "MT" Match Throw Systems featuring the Burning Spur. Kit includes: Mounting Plate, Manual Spark Ignitor ModPFSe, Ignition Hood, Ignition Hood Screen, 2-Probe Spark Ignitor, Burner Rain Shield and Bracket, Ignition Wiring, AAA Battery	\$229.00

LOG SETS

Steel Log Sets

Model	Type	Description	MAP Price
L-IW-TWIG810	Twig Set	Pro Series Steel Fire Pit four (4) piece Twig set - varied uses including: 36" Kalea Bay or add on onto other Pro Series steel Log Sets - 16" - 19" Round Pans, 24" - "H" and "T" Burner Systems (Drop-In and Flat)	\$569.00
L-IW-TWIG1214	Twig Set	Pro Series Steel Fire Pit five (5) piece Twig set - varied uses including: 48" Kalea Bay or add on onto other Pro Series steel Log Sets - 19" Round Pans, 26" Round Disc, 24" -36" - "H" and "T" Burner Systems (Drop-In and Flat)	\$779.00
L-IW-SM	Ironwood	Pro Series Ironwood Steel Fire Pit seven (7) piece Log set - 25", 29" and 33" Round Pans, 26", 29", 34" Round Disc, 25", 30", 34" Square Flat Pans	\$939.00
L-IW-MED	Ironwood	Pro Series Ironwood Steel Fire Pit eleven (11) piece Log set recommended for use with 29" and 33" Round Drop-In Pans, 29" & 34" Round Discs, 30", 34" Square Flat Pans	\$1,549.00
L-IW-LG	Ironwood	Pro Series Ironwood Steel Fire Pit fourteen (14) piece Log set recommended for use with 33" Round Drop-In Pan, 34" & 39" Round Discs, 34" & 40" Square Flat Pans, Any Firepit Round or Square up to 46"	\$2,459.00
L-IW-XL	Ironwood	Pro Series Ironwood Steel Fire Pit fourteen (14) piece Log set recommended for use with 39" & 44" Round Discs, 40" & 46" Square Flat Pans, Any Firepit Round or Square 39" up to 60"	\$2,899.00

Refractory Concrete Log Sets

Model	Type	Description	MAP Price
L-BR-3048	Birch	Birch Refractory Log Set five (5) piece set - varied uses including: 36" & 48" Kalea Bay or - 16" - 19" Round Pans, 24" - 48" "H" and "T" Burner Systems (Drop-In and Flat)	\$219.00
L-BR-6084	Birch	Birch Refractory Log Set six (6) piece set - varied uses including: 60" & 72" Kalea Bay or 25" Round Drop-In Pan, 26" Disc, 60" - 84" "H" and "T" Burner Systems (Drop-In and Flat)	\$249.00
L-DW-3048	Driftwood	Driftwood Refractory Log Set five (5) piece set - varied uses including: 36" & 48" Kalea Bay or - 16" - 19" Round Pans, 24" - 48" "H" and "T" Burner Systems (Drop-In and Flat)	\$249.00
L-DW-6084	Driftwood	Driftwood Refractory Log Set six (6) piece set - varied uses including: 60" & 72" Kalea Bay or 25" Round Drop-In Pan, 26" Disc, 60" - 84" "H" and "T" Burner Systems (Drop-In and Flat)	\$319.00
L-NO-3048	New Oak	New Oak Refractory Log Set five (5) piece set - varied uses including: 36" & 48" Kalea Bay or - 16" - 19" Round Pans, 24" - 48" "H" and "T" Burner Systems (Drop-In and Flat)	\$239.00
L-NO-6084	New Oak	New Oak Refractory Log Set six (6) piece set - varied uses including: 60" & 72" Kalea Bay or 25" Round Drop-In Pan, 26" Disc, 60" - 84" "H" and "T" Burner Systems (Drop-In and Flat)	\$319.00
L-SF	Spit Fire	Spit Fire seventeen (17) Piece Refractory Log Set - Compatible with pits larger than 19" -Lava Rock not included - (1 box) shipping weight approximately 52 lb.	\$439.00
L-SEDONA	Sedona	Sedona nineteen (19) Piece Refractory Concrete Log Set for Outdoor Fire Features, stacks up to 32" High - Compatible with pits larger than 19" -Lava Rock not included - (3 boxes) shipping weight approximately 200 lb. - must ship LTL	\$1,089.00

Underground Gas Piping

A complete "stab-on" polyethylene gas piping system for underground applications which eliminates corrosive threats associated with metallic piping. This system is designed, tested and certified for direct burial and has the lowest installation costs compared to other underground gas piping materials. No rigid pipe cutting, threading and welding.
No protective sleeve required. No heat welding typically associated with other PE piping systems.
Minimal tools required and assembles in minutes with permasert stab-on fittings and continuous lengths of flexible piping.

Item Code	Item Name	Ship Weight	Retail Price	Stocked
Polyethylene Tubing				
Sold in 250' coils only				
TFPE8250	PE Tubing, 1/2" CTS	1 lbs.	\$ 275.00	N

FlashShield by Gastite - Flexible Gas Piping

FlashShield™ is CSA design certified to ANSI LC1-2005 for “Fuel Gas Piping Systems Using Corrugated Stainless Steel Tubing (CSST).” CSST supplies natural gas or liquefied petroleum gas (LP gas) to appliances. Simple hand tools such as tubing cutters, wrenches and utility knives are all that are needed to work with the FlashShield™ components. FlashShield™ is a reliable, cost-effective system that can be installed in all modes of construction: residential, commercial and industrial; new construction and retrofits.

*All FlashShield (FS) Fittings and Tees can be used with Yellow Gastite CSST.

Item Code	Item Name	Ship Weight	Retail Price	Stocked

Notes:

How to Order Infratech

Step 1: Measure the Area

Determine the approximate measurements and mounting heights of the area you want to heat (include length, width and height).

Step 2: Select the Heaters

Select the heater(s) that will work both functionally and aesthetically for your space.

Step 3: Choose the Controls

Choose the control option that works best for your desired control capabilities or budget. Options include value control installations or infinite adjustment with solid-state controls.

Step 4: Choose Mounting Options

Choose from flush, ceiling, wall or pole mounted options (UL listed for as low as 6 feet).

Step 5: Choose Color

Infratech's heaters and flush mount frames are available in a brushed stainless steel finish, along with 8 standard color options (white, biscuit, almond, beige, black, bronze, grey and copper). Custom colors available.

Step 6: Fill out Controls Worksheet

If using Universal or Solid State Controls, please fill out the worksheets included at the end of the Infratech catalog pages.

To Order Call 1-800-682-9722
order.aes4home.com

What do the hottest spots and the coolest homes have in common? Infratech infrared heating systems. With an Infratech electric heater you can add eco-friendly, customized climate control, versatile design and ambient warmth to a wide variety of indoor-outdoor spaces. From hotel rooftop terraces to backyard breezeways and everything in between.

Infratech Heaters:

- Convert over 90% of input energy directly into radiant heat
- Emit zero greenhouse gases or odors
- Do not require ventilation
- Are UL-listed for indoor and outdoor use
- Cost less and are inexpensive to operate
- Virtually maintenance free

“W” Series All-Weather Heaters (Stainless Steel)

Single Element, minimal clearance requirements, recessed mounting options, short standoffs, mounting heights between 7-11 feet, compatible w/solid state controls for larger-scale residential or commercial use, also available in White, Almond, Beige, Bronze and Black, custom colors available by quote only.

Required when ordering Solid State Controls

INFRATECH

Solid State Control Worksheet

All Relay Panels are Built Job Specific. Please complete & return when placing a Relay Panel Order

- o Determine the heater(s) installed on each Solid State Relay(SSR)
- o Maximum 9000 Watts per Relay at 240V - 8000 Watts per Relay at 208V
- o Multiple heaters on individual relay must be the same wattage

**If Multiple Panels are on the order, clarify if the panels will be installed at the same property.
If the Panel locations will be different, they MUST be on separate PO's.**

	Qty of Heaters	Heater Model No.	Total Watts per Relay		Specify Voltage*

Associated Energy Systems

A housewarming presence for every season.

Our Mission Statement

Associated Energy Systems is a high-spirited sales company based on integrity and great customer service. As a market leader, we consistently distribute the best products and values to select customers in the home and hearth industries. Our business partnerships insure mutual profitability and excellence both personally and professionally.

Who We Are

Associated Energy Systems (AES) is a two-step, third generation distribution company providing a wide variety of high quality domestic and imported products to specialty retailers in the hearth and home industry.

What We Do

As a two-step distribution company our goal is to provide retailer establishments with quality products that deliver strong margins and above average returns.

We strive to offer a “One Stop Shopping” experience by conveniently offering a wide selection of products to our valued customers.

This Product Catalog outlines nearly 7,500 items available to the home & hearth retailer. In addition to traditional hearth products, AES provides a mix of distinctive outdoor products for the warmer seasons of the year.

“*AES will continue to be measured by exceeding customer expectations as we enter a new generation of retailing.*”

Kirk Newby
President

Associated Energy Systems is a Wholesale Distributor

Possession of this catalog does not constitute an offer to sell and does not qualify the holder the ability to purchase at wholesale. We only sell our products to retail dealers with storefront displays operating during normal business hours and to legitimate contractors involved in the trades we serve. Prior to any sale, we require a *Customer Information Form* and Resale Card (if applicable) to be signed and completed in full. Upon completion, a determination will be made whether to set up an account for the applicant.

Please remember we are a wholesale business and do not sell to the public. Our business is to serve you. *Please do not give our telephone number or catalog to your customer.* Our customer service representatives will do their best to have answers to your technical questions at their fingertips. Sometimes, however, your questions may require some research. Please understand that we may have to return your call at a later time to allow for accurate research and answers. Advice is given at no charge and should be used at your own risk. AES does not assume the liability that a particular product or service is suitable under all conditions, but rather represents the best use in our judgment according to the given circumstances.

Distribution Center Branches

To reduce the cost of freight for our customers, AES operates off-site distribution centers where product may be shipped from or picked-up via will call.

Will-Call Orders

- It is our goal to have your order ready when you arrive.
- Depending on the season/activity level it may take up to 45 minutes from the time the order is placed to have it ready.
- For faster service, place your order ahead of time via phone or at shop.aes4home.com and let us know of your planned arrival.
- Will call orders not picked up within 10 days are returned to stock.

Delivery

AES delivers to qualified dealers in some metropolitan areas. \$40.00 delivery service charge.

Pricing

This catalog lists individual items priced at retail unless noted on a specific page. This helps to make the catalog a useful sales tool for you and your customers. Prices are subject to change without notice. We will make every effort to inform you when a manufacturer expects to increase prices during the year between publications of our catalog. Notices of price increases are sent in e-mails or mailings. To protect yourself, you should mark your catalog with any increases we inform you of. Please download current pricing at www.aes4home.com/products.html.

Stock Status

For information on items regularly stocked at our distribution center locations please visit shop.aes4home.com or call AES Inside Sales for more information. Stock status of an item may change at any given time without notice.

Shipping

All freight is shipped FOB all AES Distribution Centers. Same-day shipping is employed whenever possible and priority is given to orders placed *before*: 1pm (CO, WA), 2pm (CA) and 11am (MN, TX). Orders placed *after* that time are subject to the warehouse staff's ability to ship that day. It is crucial that a staff member is available at your store to accept deliveries. There is a significant charge added by the carrier to handle COD shipments; shipments may be prepaid to save the service charge.

Goods are sent via the "best" method as determined by AES under the freight program. If a specific carrier is preferred at other times, it should be designated at the time the order is placed. All orders are shipped at your option and risk. Certain items are subject to damage, particularly insulated chimney pipe and related fittings. We recommend ordering these goods in quantities that can be palletized for auto freight or will-call.

Freight quotes are offered as a tool to dealers without a guarantee of pricing unless in writing from AES. AES is subject to residential fees, delivery location fees and other additional charges incurred from the carrier, and these will be passed on to the dealer as applicable.

AES cannot guarantee stock of inventory in every distribution center location. If an item is in stock at an alternate distribution center, we will do our best to keep freight charges to the dealer at a minimum by including the item on an inter-company stock transfer. However, any additional freight charges to bring or ship product from another distribution center will be the responsibility of the dealer.

Should special packaging be required by the carriers or requested for shipping, a minimum service charge of \$7.00 per box will be applied to the invoice. A crating fee may apply for large diameter chimney pipe. Smaller steel grates may be shipped UPS, however, they require a \$7.00 handling charge and you are responsible for full shipping charges.

Some items may not be recommended to ship via UPS, despite being sized for UPS approval. These items will be noted as such on your sales order confirmation. In these instances, AES will NOT ship the item under our freight program. If the dealer requests in writing, the item may ship via UPS. The dealer then accepts liability for the product and any damage and costs that may be incurred.

COD or Open Account

Most customers pay COD and have the option of using Visa, Mastercard or Discover bank cards (3% CC processing fee) and business or cashier's checks. Open Account billing is available in most areas of the country to customers who can show a two year business history and are approved for credit. Approval takes one week from receipt of your completed application. A *Customer Information Form* is included at the end of this section for your convenience. Associated Energy Systems reserves the right to refuse credit to anyone.

Terms of Sale

Terms of sale are noted on each invoice, see (A) in the typical invoice below. Any applicable discounts are listed on the last lines of your invoice. Invoice due dates are calculated from date of shipping (B). Exceptions are noted on each invoice. Payment is to be made by invoices as statements are not issued unless requested. Payments are only to be made with business or cashier's checks; personal checks will not be accepted. Past due and disputed accounts will be placed on COD.

8621 South 180th Street
Kent, WA 98032

Orders will not be processed for any account past due. Any account 60 days past due will lose its credit privilege. When the account is paid in full, future orders will be shipped on a "check-with-order" basis. To re-establish credit, a new credit application and credit report will be required.

Invoices past due are subject to a finance charge not to exceed 1-1/2% per month. In addition to such late payment charges, costs and expenses associated with collection of past due amounts, including reasonable attorney's fees, shall be added to amounts past due. Credits are to be used toward future purchases as a deduction on invoices due. Associated Energy Systems reports customer credit information on a regular basis as a member of the Hearth Products Credit Association.

Returned Checks

All returned checks will incur a \$40.00 service charge. Your account may be placed on a COD basis with prepayment required for a minimum of one year. Returned checks affect your credit rating.

Errors

Associated Energy Systems reserves the right to correct errors in quotes, orders, invoices or other documents.

CUSTOM AND SPECIAL ORDERS

Custom or special orders include custom cut, custom assembled, custom built, special order and orders of non-stock items. These items cannot be returned for credit.

To ensure accuracy, please have your order dimensions repeated back to you. Written confirmation is required. AES cannot accept returns or grant credit on custom cut or assembled products like Reliance, ACS or Graysen Outdoor. To protect all of us, we require an emailed order for these items. If the finished dimensions match our written invoice, any changes will be made at your expense.

Orders over \$500.00 or new accounts may be required to prepay rather than sending COD and you will be asked to mail payment to AES before the order is placed.

Special orders of non-stock items must be in case quantities, if applicable. Once special orders for non-stock products have been placed with the manufacturer, cancellation is subject to the manufacturer. Custom, Special Orders and Non-Stock goods cannot be returned for credit.

PRODUCT RETURNS

In order for us to properly credit your account, all merchandise must be pre-approved with a Return Authorization Number prior to shipping back to AES.

To request a Return Authorization Number, contact AES, either online at order.aes4home.com or by telephone. Please have the invoice number available for the item originally purchased; this will expedite your credit. If approved, a Return Authorization Number will be assigned. Ship pre-approved merchandise to AES accompanied by the Return Authorization Number; product will not be accepted without an accompanying "R.A." number attached and the proper information received.

Return Merchandise Authorizations (RMA's) in order to process, the following criteria must be met:

- Product MUST be NEW, in ORIGINAL PACKAGING and in RESALEABLE CONDITION
- Use the RMA provided as packing slip – DO NOT write on any of the packaging.
- Take photo's prior to leaving your business to show condition of product prior to carrier pick up. Please note – no photo's provided could result in NO CREDIT for the product (if carrier damages and denies claim).
- Special order, non-stock and discontinued merchandise **will NOT be accepted for return.**
- RMA's are void after 60 days from the issue date (if the product has not been returned).

Freight - Customer returns product back to AES at the original freight pre-paid amount.

- If order qualified for any freight program, the freight would be deducted from the credit amount.
- Any additional outbound freight costs associated with the return of the order will be deducted from the customer's available credit with AES.
- AES assumes all incurred freight costs of the product received was shipped in error.

Any item purchased over 90 days ago will be decided by AES Management.

Defective merchandise must be shipped back to the corporate headquarters in Kent regardless if the product originated from another distribution center location, and freight must be pre-paid. Notify AES of your intention of returning defective goods by filing a *Warranty Service Authorization Form* with us prior to shipping. You can find this form online at order.aes4home.com

Credit for returned merchandise should be issued within two weeks of the return provided the above conditions are met. All credits are issued to accounts toward future purchases. Shipment must be prepaid or it will be refused at the distribution center. Freight charges cannot be credited.

All returns are conditional and subject to a minimum 20% restocking fee.

- DISCLAIMER -

FAILURE TO FOLLOW CONDITIONAL RETURN PROCESS MAY RESULT IN DENIAL & FORFEIT OF CREDIT

Errors can cost all of us time and money, not to mention the inconvenience to your customer. That is why we ask that you be prepared by having the following ready when placing an order.

Customer Number

Customer numbers are extremely helpful to us. Although we do our best to remember all customer numbers, we occasionally forget one. Customer numbers expedite the process of getting all your account information at our fingertips and ready to process your order as efficiently as possible.

Purchase Order Number

If your company uses purchase order numbers, please have the number ready.

Shipping Information

If there is a specific mode of shipping you would like us to use regarding a specific order or all orders, please indicate this information at the time you are placing each order.

AES Item Numbers

Product item numbers are extremely important in preventing errors. All items in this catalog have item numbers associated with them unless they are a special order. AES *cannot* take responsibility for incorrect orders when item numbers are not used.

Confirmation Information

Please remind us to read your order back to you and confirm that all is correct. Product orders may be placed by calling AES Inside Sales, visiting our online orders website shop.aes4home.com, emailed (to your AES Inside Sales Rep.) or mailed. Orders will ship same day if placed by: 1pm (CO), 2pm (CA, WA) and 11am (MN, TX). Orders to be shipped via the AES truck should be placed the *day prior* to your scheduled delivery (same times).

Upon Receipt Of Your Order

Immediately upon receipt of your order, please help us help you by following these steps:

- Before signing for product, inspect the shipment for damage or any sign of damage.**
- Note anything suspected of damage on the BOL.**
- Ask the driver if you may inspect items for damage.**
- Report any damage to the freight company and then contact AES. Together we can work through the freight claim.**
- Notification of errors in your order or shipping damage must be made to AES within 48 hours of receipt of merchandise.**
- Provide pictures when applicable.**

Shortages

If an item was not received, please check the Packing Slip or Pick Ticket. Are all of the items you ordered itemized on the individual lines? If not, please call AES and we will reship the missing items as soon as possible.

In the center of the pick ticket is written the number of boxes which were shipped. Check that against the number of boxes you actually received. If you did not receive all the boxes noted on the pick ticket, it may have gotten separated during shipment and may be delivered the following day. If you do not receive the missing box the next day, call AES and we will be happy to trace the missing product with the carrier. Please have your pick ticket available, we will need information off of it to process a trace on the missing box. You may also check the pick ticket for any special notes concerning your order that might explain why you did not receive all of your products.

If an item is on the pick ticket but you did not receive it, it's possible it was out of stock and was back ordered for you. Back orders with ETA's are noted on the order confirmation. You can verify this by looking at the quantity ordered column vs. the quantity shipped column. First, make sure the quantity ordered is correct. Then check the quantity shipped, it will most likely be zero. This confirms that we did not have stock on the item and it was automatically back ordered for you.

Co-op Advertising Programs

Many of the manufacturers whose products we represent offer co-op advertising programs as well as various discounts and incentives for displaying those products on your showroom floor. We highly encourage you to take advantage of these programs in your marketing efforts as they can greatly reduce your advertising costs. The type of advertising that the fund will support varies from manufacturer to manufacturer but generally covers radio and television advertising, newspaper and magazine advertisements, printing and phone book listings. Space rental at Home Shows and Fairs also qualifies for co-op reimbursement in some cases. For specific coverages, or if you are ever in doubt, call the AES Data Processing Department for details.

Various product literature is also available in limited quantities to help with your marketing efforts. AES carries literature and/or other marketing materials for a majority of products that we sell. In most cases, there is no charge for literature, however, freight charges do apply. Promotional materials that have a cost associated with them usually qualify for co-op under the regular program guidelines. To obtain these marketing and point of purchase materials, contact the AES Inside Sales Department.

Advertising Guidelines:

“Proof” of advertising varies from media to media. Agency creative or production fees are not eligible for claim through the co-op advertising fund, nor are shipping, handling or freight charges. **Advertisements must prominently display the product name or logo in order to qualify for co-op reimbursement.** Credit for ads featuring multiple brands may be divided according to the proportion of brand representation.

Print Advertisements - Please send two copies of your original invoice showing the total you paid for the ad and two copies of a “tear sheet” (usually provided by the newspaper or magazine) or an original copy of the ad. The product name and logo must be displayed prominently in all printed forms of print advertising including Yellow Pages directory ads.

Broadcast Advertisements - Please send two copies of your script and two copies of your original invoice from the station. Television broadcast advertisements must display the product name/logo and the product itself twice to qualify for co-op advertising credit. Radio broadcast advertisements must mention the product name twice in a 30-second spot or four times in a 60-second spot to qualify. Live broadcasts must also provide photos of displays in showroom on the day of live remote.

Fair and Home Show Participation - Please send pictures of your booth clearly showing ALL items on display at the show, as well as an itemized list and a copy of the paid invoice for the booth. Credit is issued based on the percentage of space and/or products compared to the total number of products displayed and available co-op funds. Reimbursement will be based on the rental cost of the booth space only.

Co-Op Claim Schedule:

Credit for cooperative advertising claims **MUST** be mailed into AES in a timely manner according to the following schedule. Overdue claims will NOT be accepted for credit.

January-March Advertising	Claims must be filed by May 31.
April-June Advertising	Claims must be filed by August 31.
July-September Advertising	Claims must be filed by November 30.
October-December Advertising	Claims must be filed by February 28 of the following year.

To Obtain Advertising Credit:

Advertising claims must be submitted to AES, attention “Co-op Advertising”, according to the claim schedule above. All claims must include a “Co-op Advertising Claim Form” and “proof” of advertising. All correspondence regarding co-op programs should be submitted to AES Correspondence Address and not the manufacturer. Co-op advertising credits are issued by AES to your account towards future purchases; cash refunds are not disbursed. Co-op claims can only be processed for current product.

Display Program

To help offset the cost of the products displayed on your showroom floor, AES offers a showroom display program for many product lines. A portion of your cost or a flat rate credit may be offered if the showroom display requirements are met.

In some cases, display credit may be granted for products shown at special events such as home shows, parade of homes and model homes, etc. For unusual situations such as these or other display requests outside of the manufacturer guidelines, contact your AES Outside Sales representative. Prior written approval must be obtained by AES before credit will be granted.

For details on specific coverage and requirements, please reference the individual manufacturer program guidelines, or contact the AES Data Processing Department.

Display Guidelines

The following is a list of guidelines that must be met in order to receive display credit:

- The unit must be a current, up-to-date model
- The unit must be a burning model
- The unit must be shown in a complete, finished display
- The unit must be properly installed according to the owner's manual and building codes
- The dealer must commit to keeping the display on the showroom floor for a minimum of 12 months

Rules for display credit:

- Credit will be granted ONCE per model per year.
- A specific model and serial number qualifies for ONE showroom display credit only, regardless of the number of years it is on the showroom floor.
- Generally, multiple burning displays of the same model qualify for ONE showroom display credit only

For example: TWO "Model A" fireplace units displayed in a showroom, one in black and the other in Porcelain Red, qualify for ONE showroom display credit only. ***This may not apply to certain fireplaces or inserts, where various fascias and front options create a defined, unique visual appeal for consumers.***

To Obtain Showroom Display Credit

Display claims must be submitted to AES, attention "Display." Requests must be accompanied by a "Display Program Claim Form" and a clear photo of the burning display model. Please submit one form and photo for each unit you are requesting credit.

All correspondence regarding display programs should be submitted to AES correspondence address and not the manufacturer. Display credits are issued by AES to your account towards future purchases; cash refunds are not disbursed.

Warranty Programs

AES is proud to offer quality products from the industry's leading manufacturers. As a quality guarantee, most product lines represented in this catalog have warranty programs to support you in the rare case of a defective product. Programs vary between manufacturers, but generally offer credit for specific parts, and in some cases labor expense. A labor schedule including specific coverage for labor reimbursement is available upon request. The return or replacement of defective goods will be handled according to the instructions and procedures of manufacturers. Most warranties do not include shipping or labor. For more details on a particular product line, please contact AES Inside Sales.

Warranty credit requests should be sent to your Inside Sales Account Manager and must be accompanied by a completed *AES Warranty Service Authorization Form* (included in this section). Your account manager will then order replacement parts, if needed. Warranty credits are issued by AES to your account towards future purchases; cash refunds are not disbursed.

Warranties on Defective Goods

A brief summary of vendor warranties is listed below. Please refer to the vendor's brochure or call AES Inside Sales for more details on a particular product line. Warranty terms are subject to change without notice according to manufacturer policy.

American Fire Design:

Exterior fireplaces, fire tables, fire urns, fire pits, firewalls and firefalls - 3 year warranty.

Burners, electronic components and valves - 1 year warranty.

Brass valves, inner liners, manifold assemblies and back burner assemblies - 15 year warranty.

Electric grills - 10 year warranty.

Infrared burners, flavor grids and charcoal stainless steel grills and smokers - 5 year warranty.

Side burners and all other fire magic gas grill components - 3 year warranty.

Ignition systems, electronic components, grill accessories and charcoal grill components - 1 year warranty.

*Multi User - including but not limited to multi-family dwelling complexes, schools, hotels, fire stations, police stations, etc. *Excluding restaurants and settings where the grill usage is primarily commercial.*

Stainless steel grill housing, burners, stainless steel rod cooking grids, brass valves, inner liners and manifold assemblies - 5 year warranty

All other components, except batteries - 1 year warranty.

GASAV-R Valves:

1-year replacement, no labor.

Gastite by Titeflex:

1-year replacement, no labor.

Graysen Woods Outdoor Structures:

Limited lifetime warranty

Infratech

2-year warranty

Kingsman:

Limited Lifetime warranty on fireplaces.

1-year limited warranty on firepits.

Le Bol:

10-year warranty

RH Peterson:

3-year limited warranty on Outdoor Campfyre logs and enclosures.

3-year limited warranty on burner components (except valves and controls).

1-year warranty on valves and controls.

Skytech:

5 year warranty on stainless steel components (burners and pans).

1 year warranty on valves and controls.

Dealer Service Support Policy

AES and our Appliance Vendor will provide our dealers technical training to ensure safe installation and professional service on our products. This training will be provided at the time you are set up as a dealer, at the time we introduce new products or at special training events conducted from time to time. We will provide this training to your installation and service staff at your place of business or an AES facility at a mutually agreeable time. It is your responsibility to get your staff to this training as needed and make the scheduling commitment so they can receive this training. It is the dealers responsibility to provide their service and installation personnel with the tools, installation and testing equipment needed to provide safe installation and professional service on hearth appliances.

The training we provide is product specific and does not replace the general level of training required for safe installation and professional service that can only be obtained through HPBA “Hearth” supported certification training that provides a general level of understanding of installation and service practices for our industry’s equipment.

Service Support

Our vendors, for the most part, will **not** provide technical support directly to dealers and, for sure, **not** to consumers. AES will provide technical support on the products we sell to our dealers or their personnel, but we will **not** provide that support to consumers. Each consumer contact will be directed back to the closest authorized dealer. In the event that a dealer is no longer in business to service a product, AES Inside Sales will assist a consumer on how to contact another servicing dealer in the area.

AES does not sell appliances over the internet, nor do we support our dealers selling appliances over the internet. A consumer should only be buying our appliances from a local servicing authorized dealer who is approved and has training and support to sell and service our products. If a consumer buys a product outside of a dealer’s service area or through a non-approved channel, or if they do the installation themselves, they have made the decision to provide their own service and technical support. AES does not support any sales channel other than our approved dealer list.

AES Phone Support

Dealers should contact any AES inside sales personnel Monday - Friday between the hours of 8:00 – 5:00 to gain technical support on products we sell. All AES sales staff receive technical training from our vendors and most are already NFI certified (the rest have been working to become “Hearth Certified”). We are committed to providing industry leading support to our dealers.

Prior to providing technical support on the phone our inside sales staff will require the dealer to have on hand the unit serial number along with the product model number and installation specific’s. We request the dealer have an internet/smart phone connection at the time they call in, if at all possible, or at a minimum to have on hand a copy of the owner’s manual for the product. Experience has shown that a picture or other information which can be quickly shared over the internet can aid in effective and accurate communication for both sides of the phone call. It is our goal to review technical issues/questions while the tech is on the jobsite and hopefully avoid any further call backs.

AES Personnel Support

AES personnel will not make field service calls without a qualified dealer representative or the paid designated installing contractor who did the installation or service. AES personnel will not make field calls at the direction of consumers or to any consumer who bought a product other than through our approved dealer list. Further, AES personnel will not make a field service call on any appliance that was installed by anyone other than our dealer or their designated installer.

Field Service Call Procedure

The products we sell will require field service. This will be required either as a normal service call or as a warranty service. The following is the process by which AES will make calls with a dealer to a product installed in a consumer's home.

- 1) First Service Call on any appliance is expected to be made by the selling dealer. If the dealer is not able to affect a successful result or diagnosis, the dealer should contact AES Inside Sales staff while at the consumer's home in an attempt to get support needed to resolve the service issue at this time.
- 2) Second Service Call for the same appliance on the same issue is expected to be made by the selling dealer. Prior to the second call – which is required because the repair could not be affected during the first call – the dealer service personnel should contact AES Inside Sales staff. Obviously, it does not make sense to go out to the home a second time without having additional information to support a more thorough and successful second service call. If the repair is not affected at the time of the second service call – do not leave the site! Call AES Inside Sales again for support on the installation. Attempt to talk with the same inside sales person for support as you did prior.
- 3) Third Service Call – If AES Inside Sales have been involved in the first two service calls and have obtained complete information from the dealer – which may include photo's – and a successful repair has not been achieved, then AES Inside Sales will direct the AES Outside Territory manager to make a service call at the installation site at the soonest possible time. Dealer service personnel will be required to be on site with the AES staff. It is the dealer's responsibility to have their own testing and calibration equipment during this service call.
